Haet Ranpariya

Product Designer | UI/UX Designer | Frontend Developer

Rochester, NY, USA haetranpariya17@gmail.com (732) 646-3484 https://haetranpariya.com

Experienced Product Designer with a proven track record at Tech9, enhancing user engagement by 35% through innovative, user-centered design. Expert in prototyping, usability testing, and collaborating within Agile/Scrum environments, with strong collaboration skills. I also specialize in GenUI, leveraging AI tools like v0, Midjourney, and GPT-4 (Prompt Engineering) to accelerate and enhance the design process. Adept at transforming complex ideas into intuitive interfaces, leveraging design tools like Figma to deliver impactful solutions.

PROFESSIONAL EXPERIENCE

Product Designer - Tech9 | Salt Lake City, Utah ***May 2025 – August 2025***

- Designed user-centered solutions that increased user engagement (measured by Daily Active Users) by 35% and improved conversion rates (from free to paid) by 25%.
- Partnered directly with the CPO to own and lead design initiatives, translating client business goals into a clear product roadmap.
- Collaborated with cross-functional teams to design user-centric product interfaces.

Usability Specialist - Excellus BCBS | New York, New York ***August 2024 – December 2024***

- Planned and implemented a usability study using six task-based scenarios across mobile and desktop platforms, utilizing four key metrics to evaluate user interactions and identify usability gaps.
- Conducted mixed-methods research, including user interviews, surveys, and task-based usability testing with 10 users to gather in-depth qualitative and quantitative insights.

Project Lead Intern (UI/UX) - Zlato Technolabs | Ahmedabad, India ***January 2023 – May 2023***

- Led UI/UX design for a social app, improving user interaction with Figma and Android Studio.
- Delivered high-fidelity functional prototype within three months, demonstrating innovative design solutions.
- Increased daily active users through focused design enhancements and user experience improvements.

UI/UX Designer & Frontend Developer (Freelance) - Upwork | Remote ***September 2020 – December 2022***

- Led UI/UX design for a social app, improving user interaction with Figma and Android Studio.
- Delivered high-fidelity functional prototype within three months, demonstrating innovative design solutions.
- Increased daily active users through focused design enhancements and user experience improvements.

Design Intern Laurentian University | Greater Sudbury, Canada ***June 2022 – August 2022***

- Selected for a 3-month international exchange program, combining a full-stack internship with academic coursework
- Designed the UI/UX and developed a full-stack application (frontend & backend) to manage transportation invoices and inventory
- Implemented complex business logic for cross-border import/export tax and goods management.

Founding Designer & Developer - WaahTv ***October 2021 – February 2022***

- Led the end-to-end product lifecycle from concept to production, owning all design, development, and strategy for an OTT platform now serving 10K+ active users.
- Delivered a complete streaming solution from concept to production. Utilized Figma and Android Studio to develop user-friendly features for live streaming channels.

EDUCATION

M.S. Human Computer Interaction
Rochester Institute of Technology, Rochester, NY | Current (Dec 2025) | GPA: 3.9/4

B.E. Computer Engineering
Gujarat Technological University, Ahmedabad, India | June 2023 | GPA: 3.7/4

SKILLS

- Prototyping
- Interaction design
- User persona
- Wireframing
- Storyboarding
- User research
- Visual design
- UI/UX design
- AR/VR design
- User journey mapping
- Usability testing
- Design systems
- Product management
- Design thinking
- Accessible design
- HTML, CSS
- Mobile app design
- WCAG
- User-centered design
- Information architecture
- Figma
- Adobe XD
- JavaScript
- User experience design
- Cross-functional collaboration
- Agile methodologies
- Prototyping tools
- Visual communication
- Frontend development

CERTIFICATIONS

- Google's UX Design Professional Certificate
